Engage with Pakistani Youth and Teaching Community through English Language Programs

Project Title	Engage with Pakistani Youth and Teaching Community through English Language Programs
	The Virtual Intern will engage with Pakistani youth and educators to share American culture through virtual classroom visits and social media outreach.
Country	Pakistan

Project Description

Interested in becoming a celebrity in Pakistan? The intern will engage with thousands of Pakistani students and teachers through the Department of State's largest English language outreach programs. As our cultural ambassador, the intern will share her/his insights on American life while giving students and teachers important opportunities to interact with an American native speaker of English. In addition to virtual classroom visits with students and teachers from across Pakistan, the intern will have the opportunity to connect with Pakistani audiences through social media posts, vlogs/blogs, Facebook live sessions, and videos about life in the USA. Originality and creativity are a plus as the intern's ideas for outreach and programming will be encouraged.
